

# OFFICIAL OPENING

Transcona's New  
Curling Rink

TRANSCONA, MAN.  
December 17th  
1938

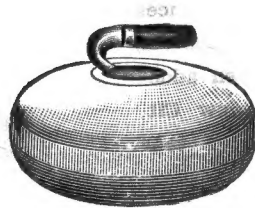

# *Official Opening*

of the

NEW CURLING RINK

of the

TRANSCONA CURLING CLUB

TRANSCONA, MANITOBA

DECEMBER 17th, 1938

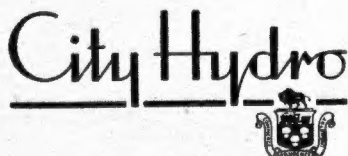

at 7.30 p.m.

# Stone *by* Stone

The origin of curling is lost in antiquity, but a few pictures of stones used by past generations (shown here) trace the evolution of curling from its crude beginning. Stone by stone, the game developed in skill and popularity until now it ranks among the leaders in winter sports.

Similarly, City Hydro has developed from a modest beginning into a great municipally-owned electric utility. With its finances built on a rock-like foundation, stone after stone has been added to the structure until now City Hydro has assets which total nearly \$40,000,000 and reserves of over \$12,500,000.

## Foreword

**T**RANSCONA in completing her Curling Rink became once more a worthy member of the society of Western towns. A town without a curling rink is tarving its mature population of its natural recreational nourishment and gives a very inadequate expression of western community life.

From the days when curlers played by the light of lanterns on the ice of the Red River to the present modern times, where rinks vary from the baled hay rinks of the drought areas of the west to our luxurious city rinks, our citizens have curled in spite of apparently insurmountable difficulties. It was in harmony with this spirit that a group of Transcona enthusiastic curlers and public spirited citizens met together in June of this year and began to plan for the erection of our present serviceable structure.

The members of our committees have admirably co-operated with one another with fervency and zeal and with a determination to see this project brought to a successful conclusion. We have disagreed in some instances with one another on our opinions; there have been times when some of us were pessimistic as to its feasibility. Disagreements there have been and disagreements there will be as long as we have a curling rink but this is only incidental to its successful operation and adds spice to life .

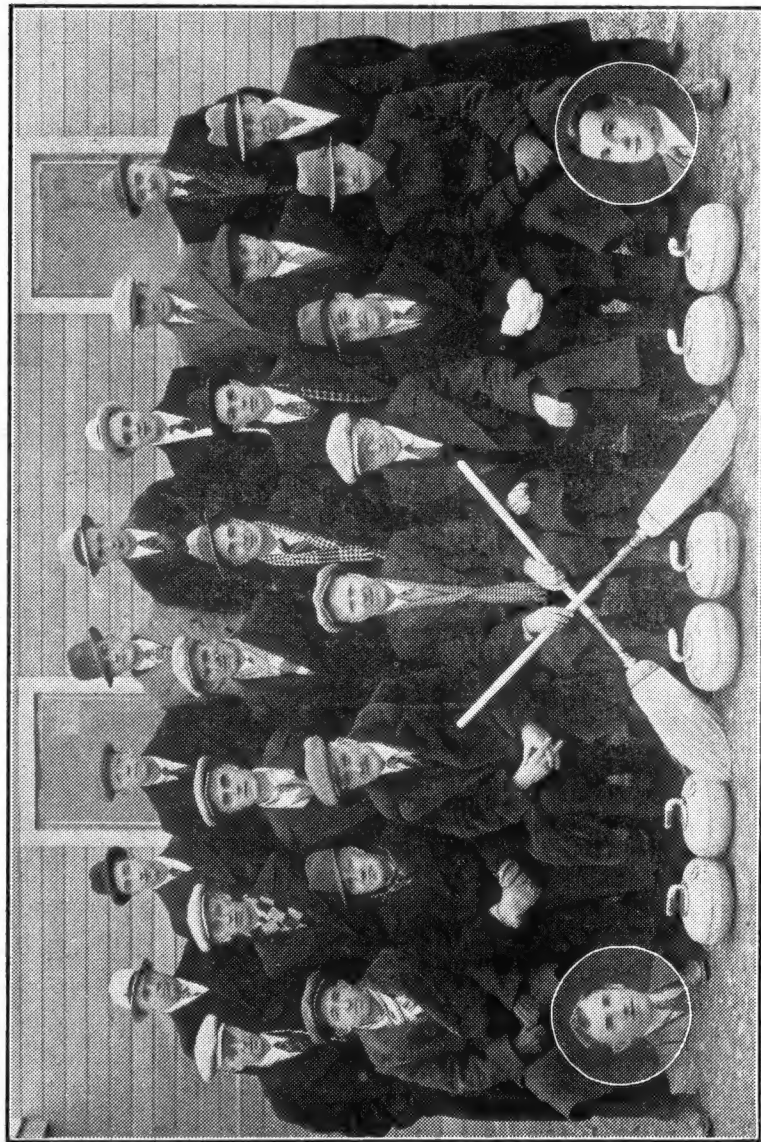

I am sure we all agree that the support of the citizens of Transcona has been particularly commendable and we as a club feel well repaid for our efforts. We feel we have all worked towards a project which undoubtedly will fill a long felt want of goodfellowship, a wider circle of acquaintances, and recreational winter pastime for many.

As time marches on many games will be played on the ice but infinitely better games will be played behind the glass in our club rooms. It may be some years before the O'Grady trophy comes to stop with us for a period of time; our representative may not win the British Consol's this year or next; this we do believe that the citizens of the town have been captured by the spirit of curling and that the social life of this community is going to be enriched.

Once again may I express on behalf of our executive our warmest thanks to all those who have helped us in any way to attain our objective.

L. E. GENDRON, President,  
Transcona Curling Club.

# History of the Club

---

## LOOKING BACKWARD!

**T**HE curling enthusiasts of twenty-five years ago were also justly proud of their rink which was located at Pandora and Kanata streets and consisted of a skating rink and two sheets of curling ice with provision for two additional rinks.

From information we have been able to gather the rinks were not a total success on account of the snow sifting in through the building which was constructed of galvanized metal.

Unfortunately it was built just previous to the outbreak of the World War and the following year saw many of our best citizens leave for overseas. It was during these depressing times that the financial status of the club became so low it was impossible to carry on and in 1919 it was sold and demolished.

Some of the notables of the old curling days were Wm. Turriff, Chas. McK. Gray, Joe Holland, D. T. (Blondie) Hughes, Geo. C. Jones, Johnny Gunn, J. D. Matheson, B. H. Greenwood, J. James, C. J. E. Maxwell, Transcona's first Mayor, W. H. Ritchie, W. T. McKibbin, Robt. Lidgate, J. Forrest, A. Lyttle, T. K. Moore, Rev. G. L. Waite, J. McLean, Phil and Jake Riehl, Mr. Esson, Wm. Newman, E. H. Cooke, H. Hampton, Leslie Head and others possibly, of whom we have no record. Some of these old time curlers are in Transcona today and may be seen enjoying the good old pastime in the new rink.

---

## THE NEW CLUB CARRIES ON

**A** NUMBER of enthusiastic curlers in Transcona have gathered together, achieved their objective when an informal meeting was called in the Transcona Town Hall on June 1st, 1938.

At this meeting it was announced that Mr. W. C. McKinnell, the town Supervisor, had granted permission for the club to demolish the South Side Fire Hall and to use the material for the purpose of building a new Curling Rink.

## HISTORY OF THE CLUB— (Continued)

---

The outcome of which, thanks to the good offices of Mr. J. A. McLean our town solicitor, a charter was obtained under the "Companies Act" and the club registered under the title of the "Transcona Curling Club Limited."

It is in order, at this point, to express our appreciation of the commendable action of the old club in turning over their funds and property to the tender mercies of the new organization, and we venture to say that their confidence was not misplaced.

The next step in the growth of the new club was a period of intense organization and preliminary "spade work."

The club was fortunate in having the services of competent and enthusiastic workers on all committees, and the result of their efforts we believe to be a credit, not only to our community, but to the Province of Manitoba.

Shares in the club were issued at Ten Dollars each, and its success is due, in no small measure, to the splendid co-operation received from the business and professional men of Transcona, and the public in general, and this is all the more appreciated in consideration of the fact that the success of the project was, at that time, more or less a matter of conjecture.

Considerable financial aid was also received from a number of Winnipeg firms whose kindness in this direction is here gratefully acknowledged.

Our Mayor and Council have stood solidly behind the venture at all times and the Transcona Board of Trade has also extended its co-operation.

The rink building itself is a carefully designed structure of 170 feet long and 60 feet wide, accommodating four sheets of ice and a commodious club room, 18 feet by 60 feet, including a caretaker's room and full modern conveniences.

In addition to this, there is a smaller up-stairs room which will afford more or less private accommodation as occasion may arise.

Glassed partitions in both rooms provide a good view of the ice.

## HISTORY OF THE CLUB— (Continued)

---

A radio is being installed, and the furnishings are expected to be of quite elaborate nature.

A considerable amount of valuable information and advice was obtained from Mr. Gordon Hudson and Mr. Neil Sullivan, secretary and president, respectively, of the Manitoba Curling Association, and it is the sincere hope of this club that Transcona will be the richer in the opportunity provided for the encouragement of one of our finest winter sports, and the promotion of real good fellowship.

A final word of praise must be accorded to Mrs. Shaw, (president) and Mrs. Brownbridge, (secretary), of the Manitoba Ladies' Curling Association for their splendid work in organizing a local Ladies' Curling Club which promises to equal or even surpass, in enthusiasm, the activities of the male exponents of the Grand Old Game.

To one and all who contributed in any way to the completion of this outstanding contribution to the community life of Transcona, we extend our sincerest thanks and appreciation.

And now for the Bonspiel! ! !

---

## The Transcona Ladies' Curling Club

---

Transcona can now boast of its first Ladies' Curling Club, and from the activities displayed at the present time we can rest assured it will be a successful club.

On November 16th an organization meeting was held in the Town Hall when Mrs. A. H. Shaw, and Mrs. F. W. Brownbridge, president and secretary, respectively, of the Manitoba Ladies' Curling Association, were present to conduct the meeting and help in the organization work.

As a result of this meeting a real energetic and enthusiastic slate of officers were elected and they lost no time in going to work. They can now boast of a real club and a large number of members were initiated into the finer points of curling during the novelty bonspiel. Space will not permit us to say more about this enthusiastic group of ladies but we believe when another year rolls around we can say Transcona really has some lady curlers.

*In Turn, Revolving towards right*

*Diagram to be drawn on the ice previous to playing and referred to throughout the rules as "THE RINK."*

*Out Turn, Revolving towards left*

# Rules of the Game

---

1. The standard length of the rink shall be 46 yards from hack to hack, and shall be laid out according to the annexed diagram.

2. From and in exact alignment with both tees, a line called the centre line shall be drawn to a point four yards behind each tee; at this point a line shall be drawn at a right angle to the centre line, on which the hack shall be cut. The hack shall not exceed six inches in length, nor shall the inner edge thereof be more than three inches from the centre line, so that all stones shall be delivered with their centre upon the centre line.

3. No important match shall be commenced if the ice be not in a condition fairly to test the curling skill of the competing players. The umpire's decision regarding the condition of the ice shall be final in all cases.

4. All matches must be the majority of shots won, after playing a certain number of heads. In the event of both parties being equal at the conclusion of the match, play shall be continued, under the direction of the umpire by all rinks engaged, for another head, or for such additional number of heads as may be necessary to decide the match.

5. Every rink to be composed of four players a side, each using two stones, and playing one stone alternately with his opponent, and the rotation of players observed in the first head shall not be changed during the match.

6. The two skips opposing each other shall settle by lot, or in any other way they may agree upon, which party shall lead in the first head, after which the winning party shall lead.

7. The skips shall have the exclusive management and direction of the game for their respective parties, and may play last or in any part of the game they please, but are not entitled to change their places when once fixed. When their turn to play comes, they shall each appoint one of their players to act in their places as skip of the game, and must take the position of ordinary players until they have played and returned to the tee-head as skips.

8. Players during the course of each end shall be arranged along the sides, but well off the rink, as their skips may direct; and no party except when sweeping, according to rule, shall go upon the middle of the rink. Skips alone have to stand within the twelve-foot circle; the skip of the party playing to have the choice of place, and must not be obstructed by the other in front of the tee; while behind it, the privilege of both, as regards sweeping, shall be equal.

9. Every player must be ready to play when his turn comes, and shall not take more than a reasonable time to play; should he play a stone belonging to another player, any of the players may stop it while running; but if not stopped till at rest, the stone which should have been played shall be put in its place to the satisfaction of the opposing skip.

## **RULES OF THE GAME (Continued)**

---

10. If a player should play out of turn, the stone so played may be stopped in its course and returned to the player; should the mistake not be discovered until the stone be at rest, or has struck another stone, the opposing skip shall add one to his score, and have the option of allowing the game to proceed, or declaring the end null and void; but if another stone has been played before the mistake has been noticed, the end must be finished as if it had been played properly from the beginning, and such missed stone shall not be played for that end.

11. If any player engaged, or belonging to either of the competing clubs, shall taunt or otherwise interrupt any other player, not of his own party, while preparing to play his stone, so as to disconcert him, one shall be added to the score of the party so interrupted, for each interruption and the play proceed.

12. If in sweeping, or otherwise, a running stone be marred by any of the party to which it belongs, it shall be put off the ice, and the opposing skip shall have option to add one to his score, and allow the game to proceed, or to call the end null and void; but if marred by any of the adverse party, it shall be placed wherever the skip of the party to which it belongs may direct. If marred in course of play after delivery in any other way excepting straws from brooms, the player shall replay the stone. Should any played stone be replaced by any of the players before the head is reckoned, it shall be placed as near as possible to where it lay, to the satisfaction of, or by the skip opposed to the party displacing it. If displaced by any neutral party both skips to agree upon the position to which it is to be returned, and if they fail to agree, the umpire shall decide.

13. The sweeping shall be under the direction and control of the skips. Upon all occasions a stone may be swept from the HOG SCORE nearest the point from which the stone is delivered, and may be swept by the party to which it belongs until it comes to the SWEEPING SCORE; but all stones when they have passed the sweeping score may be swept by EITHER SKIP ONLY. Skips will have the liberty to sweep behind the tee at all times, except when a player is receiving directions to play from the skip. All sweeping shall be across the rink, and the sweeper must be in front of the stone being swept, and at one side thereof; and no sweepings shall either be moved forward, or left in front of a running stone or a stone "at rest."

14. All stones shall be of circular shape. No stone, including handle, shall be of greater weight than forty-seven and one-half pounds, or of greater circumference than thirty-six inches, or of less height than one-eighth part of its greatest circumference.

15. A stone which fails to pass the hog line shall be removed from the ice, unless it has been prevented from passing by striking another stone lying in play.

16. All stones which have passed the back line shall be removed from the ice.

17. Every stone within or resting upon the outer ring shall be entitled to be counted in the game, and a stone shall not be considered over a line unless it has crossed it and entirely cleared it.

## **RULES OF THE GAME (Continued)**

---

18. No stone or side of a stone shall be changed after a match has begun unless with the consent of the opposing skip. Should a stone happen to be broken during the game, the largest fragment shall be considered in the game for that end, and the player shall be entitled to use another stone or another pair, during the remainder of the game.

19. Should a played stone roll over or stop on its edge, or top, it shall be put off the ice. Should the handle quit the stone in delivery, the player shall be entitled to replay the stone if it is stopped before it reaches the hog score at the end of the rink to which it is being delivered.

20. No measuring of shots allowable previous to the termination of the end. Disputed shots to be determined by the vice-skips; or if they disagree, by the umpire; or, if there is no umpire, by some neutral person chosen by the skips. All measurements to be taken from centre of tee to nearest point of stone after removing stones interfering.

21. If any of the competing rinks are not ready to begin play at the hour named for a match, one end shall be counted as played for every ten minutes delay; and the opposing rink, if ready to play, count one point in the game for each such period of time it is kept waiting.

22. No rink shall be eligible to enter for any competition or match under the jurisdiction of the Association, unless in the first game they have four bona-fide active players. If, however, after starting in any event, any member through sickness, or other unforeseen circumstances, is unable to play, then the following rule to apply:

(a) If the skip be absent, then the third man becomes the skip, and the second man plays his own and the third pair of stones.

(b) If the third player be absent, the second man shall play second and third place.

(c) If the second man be absent, the lead shall play both first and second stones.

(d) If the lead be absent, the second player shall play his own as well as the lead stones.

(e) No sweeper shall be allowed for the absentee, and no rink shall continue play with less than three men.

23. After all the stones have been played in each head, the head shall be counted as follows: the side having one or more rocks nearer the centre than any of those of the opposing side shall count one point for each rock nearer such centre point, that is to say, if one skip has three rocks nearer the centre point than the other, and then the other skip has one rock the fourth nearest, then the first skip has three more, the first skip shall only count three because the fourth rock would destroy the others, and so on.

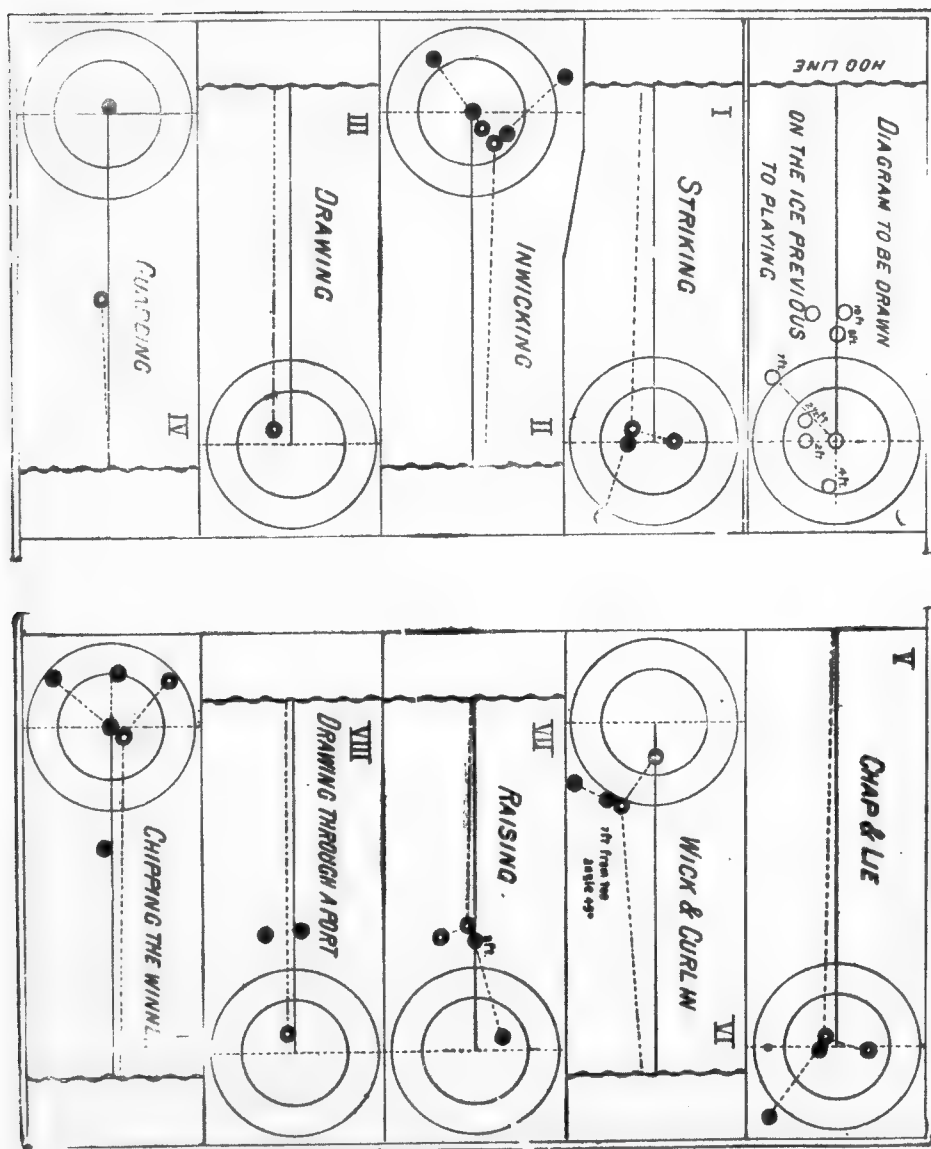

24. The game is scored by ends, the side winning the greatest number of shots in the head counts one point for each shot, and the game is totalled at the completion of the required number of ends, and the side having the greatest number of points wins the game.

25. In connection with competitions where the question is raised as to whether a game is played or defaulted, it shall be understood that all games where one end or more has been played, and for some reason the game stopped, the game shall be considered a played game, and not a default under the rules.

**Be A TRUE CURLER—DON'T BE LATE FOR THE GAME**

# Diagram for Points Games

PLACED STONES THUS ●  
PLAYED ○

# Ice Rinks and Points Game

---

1. All District Matches, as well as those played at the Annual Bonspiel or in a Points Competition, must be played on new or virgin ice, or upon neutral ice.

2. Ice for curling shall be deemed new or virgin ice:

(a) When it has not been previously played upon.

(b) When, since last played on, it shall have been sprinkled with water over the entire ice surface, before freezing.

(c) Shaving off nodules or protuberances from the surface of the ice, or the application of any mechanical operations, having for their object the bringing of the ice to a true and correct level, shall not be held as degrading ice otherwise entitled to be called new or virgin ice; but such operations must be carried on under the direction of the umpire.

(d) In no such case shall any special preparation of the ice be made, intended or calculated or having for its object to facilitate the making of any particular shot, or to otherwise pervert the ice surface from the true and correct level.

3. While the main object of matches between clubs is to determine their relative skill in the game, it should ever be borne in mind that the ultimate object of curling is to develop a MANLY RECREATION, and to promote goodwill, kindly feeling, and honorable conduct among those who take part in it; and this sentiment should influence both the interpretation and the application of all the rules.

4. Rinks shall be laid out in accordance with the Points Diagrams given for the game herewith. Within the 12-foot circle, a circle 8 feet in diameter shall be drawn around the tee and a centre line or score from the hack to the hog score.

5. Lots shall be drawn for the order of playing; each competitor shall change position one place after each round, thus: The first player to be the last in playing next round, and the second player to be the first, at the next, and so on. Each competitor shall use two stones, and play them, the one immediately after the other, and shall not during the competition change the side of a stone, or the stone itself, unless it happens to be broken.

6. Every competitor to play four shots at each of the nine following points of the game, viz.: Striking, Inwicking, Drawing, Guarding, Chap and Lie, Wick and Curl In, Raising, Drawing Through a Port, and Chipping the Winner, according to the following definitions, and each successful shot shall count as hereinafter provided:

(a) **STRIKING**—A stone placed on the sweeping score, and with its inner edge 2 feet from the tee. If struck to count 1; if struck out of the 12-foot circle to count 2.

(b) **INWICKING**—One stone being placed on the tee, and another with its inner edge 2 feet 6 inches from the tee, and its fore-edge on a line

## ICE RINKS AND POINTS GAME (Continued)

drawn from the tee at an angle of 45 degrees with the centre line; if the played stone strike the latter on the inside, to count 1; if it perceptibly moves both stones, to count 2.

(c) **DRAWING**—If the stone played lies within or on the 12-foot circle, to count 1 if within or on the 8-foot circle to count 2.

(d) **GUARDING**—A stone, to be guarded, placed with its fore-edge on the tee. If the stone played rests within 6 inches of the central line to count 1; if on the line to count 2.

(e) **CHAP AND LIE**—If the stone placed on the sweeping score with its inner edge one foot from the tee, be struck out of the 12-foot circle, and the played stone rests within or on the same circle, to count 1; if struck out of the 12-foot circle, and the played stone rests within or on the 8-foot circle, to count 2.

(f) **WICK AND CURL IN**—A stone being placed with its inner edge 6 feet distant from the tee, and its fore-edge on a line making an angle of 45 degrees with the central line; if the stone is struck and the played stone curls on or within the 12-foot circle, to count 1; if struck and played stone rests on or within the 8-foot circle, to count 2.

(g) **RAISING**—A stone played with its centre on the central line and its inner edge 8 feet distant from the tee; if struck within or on the 12-foot circle, to count 1; if struck within or on the 8-foot circle to count 2.

(h) **DRAWING THROUGH A PORT**—One stone to be placed with its inner edge on the central line, 10 feet in front of the tee, and another stone placed parallel thereto, and with its inner edge 2 feet from the central line; if the played stone passes between these two stones without touching either, and rests within or on the 12-foot circle, to count 1; if within or on the 8-foot circle to count 2.

(i) **CHIPPING THE WINNER**—A stone being placed on the tee and another 10 feet distant, and with its inner edge just touching the central line, and half guarding the one on the tee, and a third stone being placed 4 feet behind the tee, with its inner edge touching the central line, but on the opposite side from that on which the guard is placed; if the played stone strikes the stone placed behind the tee, to count 1; if it strikes the stone on the tee, to count 2.

N.B.—In the event of two or more competitors gaining the same number of shots, they shall play four shots at "WICK AND CURL IN."

7. If the competition cannot be decided by these shots, the umpire shall order one or more points to be played again by competitors who are equal.

8. In the Point Game, the Rinks may be swept as often as required during the intervals between the playing of the stones. A player may sweep his own stone, no other person being allowed to do so, and no person shall be allowed to direct the player, except to hold the broom as the player directs.

**NOTE**—It will save much time if, in playing for local prizes, two rinks be prepared lying parallel to each other, the tee of one being at the reverse end of the other rink. Every competitor plays both stones up the one rink and immediately afterwards down the other; finishing thus, at one round, all his chances at that point.

It will also save much time if a code of signals be arranged between the marker and the player such as: The marker to raise one hand when one is scored, and both hands when two are scored. In the case of a miss both are to be kept down.

# List of Shareholders

This list is not a complete list of shareholder members and non-shareholder members—It is quite probable that shares and memberships have been taken out since this book was compiled.

## Community Progress . . .

The new home of the Transcona Curling Club, 60x176 feet, located on Oxford street near Regent avenue, was built by J. K. Johnson, contractor, with the assistance of Transcona workmen.

**T**HE opening of the New Transcona Curling Rink marks a significant occasion in the community life of our town. It will provide a common meeting place wherein citizens of all ages, interests and creeds may gather and mutually enjoy the healthful invigorating pastime of curling and thereby create new friendships and foster a wider and fuller community spirit.

The Construction of  
the Transcona Curl-  
ing Rink was under  
the supervision of

**J. K. Johnson**

Contractor

associated with

**North American Lumber  
and Supply Co. Ltd.**

We are glad to have been associated with this enterprise from the beginning, to have been able to help with the plans and to have had the opportunity of supplying the lumber and building materials bought for the work.
